

MEET THE TEAM

Dr. Lanna Cheuck, DO FACS

Founder & Medical Director

Inventor of the "Celebrity Liquid Facelift," Key Opinion Leader in all things Aesthetics & Sexual Health related, Speaker, Motivator, and featured in Forbes.

Cynthia Suarez, PA

Senior Injector

Cynthia has an eye for symmetry and loves to work with patients to achieve a balanced, natural beauty!

Christina Delgado, NP

Head Trainer

Christina coaches medical professionals and provides the necessary tools to increase confidence, improve techniques, and build your brand and business.

SPOTLIGHT

Dr. Virginia Giugliano

Dr. V is the newest addition to the team! She is a Board Certified Physician injector working select Saturdays every month. She specializes in sexual health, PRP, face and body contouring, and more mature facial rejuvenation. She is also well-versed in hormonal changes women experience and utilizes a variety of vaginal rejuvenation therapies and Bio-Identical Hormones.

Hydrafacial

The Hydrafacial is non-invasive skin care treatment that is personalized to help you achieve your skin goals. The Hydrafacial follows 3 steps: Cleanse, Extract, and Hydrate, to give you beautiful and radiant skin. Book an appointment with us today and we will help you glow with confidence!

Happy New Year!

As we look forward to the new year, I'm excited to introduce you to new members to the LC Medical Team and the new procedures that we have to offer.

Doctor Lanna

INMODE

Morpheus8 V

Morpheus8 V is for Vaginal Rejuvenation and Urinary Incontinence. Morpheus8 V stimulates the regrowth of new tissue such as boosting collagen and elastin production. Improvements include making the vagina and vulva softer, more elastic, and make sex more pleasurable for you and your partner!

V-Tone

The V-Tone uses a small applicator to deliver intravaginal electrical muscle stimulation with the aim of rehabilitating weak pelvic floor muscles treating stress, urge, and mixed urinary incontinence.

Tone on EvolveX

Tone works by emitting electrical muscle stimulation to induce involuntary muscle contractions increasing muscle strength and toning the body. Tone is a treatment for the abdomen and buttocks where a 20-minute session is equivalent to 2,000 crunches!
