VAGINAL REJUVENATION

PRP for Vagina

This minimally invasive shot into the clitoral and vaginal areas helps to increase libido and ability to orgasm.

FormaV

Vaginal probe that provides uniform deep heating for treating Vaginal Laxity, Vaginal Dryness, and Frequent Urination. Patients often see treatments effects immediately with continued results over the following weeks.

VTone

A gentle, nonsurgical technology designed to provide intravaginal electrical muscle stimulation (EMS) to rehabilitate weak pelvic floor muscles and improve the symptoms of stress, urge, and mixed urinary incontinence.

Morpheus8V

Provides an intravaginal treatment similar to FormaV mentioned above. This is a more aggressive approach for more severe Feminine Health concerns.

Aviva

A scarless procedure that reduces the labia minora and/or majora if there is discomfort or cosmetic issues.
