TONE

Are you ready for your beach body?
Get TONED with LC Medical!

Tone on EvolveX works by emitting electrical muscle stimulation to induce involuntary muscle contractions increasing muscle strength and toning the body. Tone is a treatment for the **abdomen and buttocks** where a 20-minute session is equivalent to 2,000 crunches!

THE "CELEBRITY LIQUID FACELIFT"

Dr. Lanna's Signature Specialty

What is The "Celebrity Liquid Facelift"?

The "Celebrity Liquid Facelift"—a term coined by Dr. Lanna herself—starts at 3 syringes of filler strategically placed in various areas of the face to provide optimal rejuvenation and lift. LC Medical has payment packages for 3-fillers, 5-fillers, and 7-fillers and this procedure can be combined with others such as Threadlifts and Botox during the same visit.

What is the downtime?

This procedure is estimated to take about an hour and has little downtime. While you can resume your daily activities it is recommended that you wait 72 hours before you can drink alcohol, exercise, and sunbathe again. You can fly afterwards.

What can I expect?

It is normal to have swelling, asymmetry, and soreness as fillers can take up to 14 days to settle in and heal. You can use Tylenol to alleviate discomfort, but if you have any questions or concerns you can reach us via phone call, text, or email.
